

## MADEIRA

*{served by the ounce}*

In the 1600's-1700's, wine was often fortified to survive long voyages at sea. While afloat, casks of Madeira were naturally heated. The resulting wine developed complex flavors that became highly prized. Producers then developed techniques to mimic this process. The result is Madeira, as we know it today; one of the most unique and interesting wines in history.

George Washington, Betsy Ross & Thomas Jefferson are among America's most celebrated lovers of Madeira. Madeira is very likely the wine which was consumed at the signing of the Declaration of Independence and at most of the milestones of early American history. Virginia owes its wine industry to Thomas Jefferson's attempts to recreate Madeira on his own estate. In their honor we have created a collection of rare Madeira dating back over 150 years and available by the ounce. We encourage you to try one of our recommended flights or take a custom journey with our Sommelier. Enjoy!

### **DRY** {pair w/oysters, seafood, charcuterie, cheese}

## ***YELLOW/OXIDATIVE***

Yellow wine, or vin jaune in French, is very process driven. These wines are made similarly to sherry, wherein they age in small barrels after fermentation under voile (or a veil or film of yeast). This keeps the wine from getting oxidized during a typically longer than usual period (often more than 6 years!) the aging process for wines made from white grapes. The finished wines are similar in style to a Fino sherry, without the additional alcohol from fortification. These wines are slightly nutty in style and often cloudy in the glass.

9016. Domaine Rolet, Vin Jaune, Arbois 2015 (620ml) 197  
{Savagnin}

9015. Domaine Maire & Fils, Vin Jaune, Arbois 2018 (375ml) 115  
{Savagnin}
5518. Jean François Ganevat, 'Sous Voile,' Arbois 2017 (750ml) 340  
{Savagnin}

## ORANGE

Most of the color in wine comes from the skin, rather than the juice. Orange wines are intentionally darker in color because the winemaker has made a choice to let the white grape juice ferment with extra skin contact, like they might with a red wine. This extra contact with the skins of the grapes results in a deeper color to the finished wine and often, a richer flavor and more texture on the palate. Orange wines can be clean and fruity or very funky and fun.

## ***CHILLED REDS***

Wait –what??? Why would you drink red wine cold? Well, there's a good case to be made for enjoying lighter, brighter, fruitier reds at the same temperature as you would enjoy a rosé or a white wine. Look for this snowflake symbol ❄ which identifies these same wines in their respective categories in the body of our list. We are confident this will enhance your enjoyment of these delicious and refreshing reds.

## OTHER FERMENTS

### LAMBIC – 750ML

*The oldest beer style in the world and the closest beer truly gets to terroir. Eccentrically earthy and complex expression of the brewing art, a mystical mash-up of microorganisms and micro-flora; an oak-aged, ancient, organic ale shaped by the fickle whimsies of weather, wild yeast, wood and Belgian bacteria.*
