

PRODUCERS OF NOTE

GANEVAT

The wines of Jean-François Ganevat are exciting for us to talk about because not only are they unique and individualistic, but they are also made with an inspiring level of care and precision. Additionally, Ganevat has decided to completely eliminate the use of sulphur in his wines. Amongst Ganevat's portfolio of wines, the whites tend to be more powerful, the reds delicate, the majority seem to lean towards a more Burgundian style, and some are still recognizably Jura, but as mentioned, these wines really transcend category. Ganevat is a detail-obsessed madman, and a true master of his craft. We hope his wines bring you the same joy as they bring us.

MATTHIASSEN

Steve and Jill Matthiassen have been described as quiet anarchists in Napa Valley. They started their journey as winemaking consultants to some of the region's top, benchmark producers before launching their own label: Matthiassen. They methodically began procuring vineyard sites in Napa, with a focus on producing refined and elegant expressions of traditional grape varieties (E.G. Cabernet Sauvignon and Chardonnay). As their thoughtfulness and aspiration for discovery bubbled, so too did the wide array of varied wines that they make. Currently, they produce upwards of 20 different grapes including rarely produced varieties such as Pinot Meunier, Schioppettino, and Falanghina. Attempting to try them all is a challenge worth accepting!

JEAN-MARC PILLON

Jean-Marc is keener on his red wines than many of his other Chassagne-Montrachet colleagues are on theirs. His Pinot Noirs are made seriously and with focus. The juice undergoes a longer than average cuvaison (juice to skin contact), including pre-fermentation maceration of the destemmed grapes. The wines are aged for 12 months in barrel with a max of 30 percent new oak, followed by 6 months of tank ageing. All farming is done by hand with minimal intervention, specifically on the white wines to emphasize minerality.

MADEIRA
{served by the ounce}

In the 1600's-1700's, wine was often fortified to survive long voyages at sea. While afloat, casks of Madeira were naturally heated. The resulting wine developed complex flavors that became highly prized. Producers then developed techniques to mimic this process. The result is Madeira as we know it today; one of the most unique and interesting wines in history.

George Washington, Betsy Ross & Thomas Jefferson are among America's most celebrated lovers of Madeira. Madeira is very likely the wine which was consumed at the signing of the Declaration of Independence and at most of the milestones of early American history. Virginia owes its wine industry to Thomas Jefferson's attempts to recreate Madeira on his own estate. In their honor we have curated a collection of rare Madeira dating back over 150 years and available by the ounce. We encourage you to try one of our recommended flights or take a custom journey with our Sommelier. Enjoy!

YELLOW

Yellow wine, or vin jaune in French, is very process driven. These wines are made similarly to sherry, wherein they age in small barrels after fermentation under voile (or a veil or film of yeast). This keeps the wine from getting oxidized during a typically longer than usual (often more than 6 years!) aging process for wines made from white grapes. The finished wines are similar in style to a fino sherry, without the additional alcohol from fortification. These wines are slightly nutty in style and often cloudy in the glass.

ORANGE

Most of the color in a wine comes from the skins, rather than the juice. Orange wines are intentionally darker in color because the winemaker has made a choice to let the white grape juice ferment with extra skin contact, like they might with a red wine. This extra contact with the skins of the grapes results in a deeper color to the finished wine and often, a richer flavor and more texture on the palate. Orange wines can be clean and fruity or very funky and fun.
