

## *PRODUCERS OF NOTE*

### *LOPEZ DE HEREDIA*

Lopez de Heredia - one of the most venerable producers in Spain— produces traditional, age-worthy Rioja. Their wines are legendary and still made the way they were when the winery was founded over 130 years ago. Following a tradition that has been passed down through generations, their wines are released at least 5-10 years after harvest, which provides added complexity and elegance to their Crianzas and Gran Reservas.

### *MATTHIASSEN*

Steve and Jill Matthiasson have been described as quiet anarchists in Napa Valley. They started their journey as winemaking consultants to some of the region's top, benchmark producers before launching their own label: Matthiasson. They methodically began procuring vineyard sites in Napa, with a focus on producing refined and elegant expressions of traditional grape varieties (E.G. Cabernet Sauvignon and Chardonnay). As their thoughtfulness and aspiration for discovery bubbled, so too did the wide array of varied wines that they make. Currently, they produce upwards of 20 different grapes including rarely produced varieties such as Pinot Meunier, Schioppettino, and Falanghina. Attempting to try them all is a challenge worth accepting!

### *RAÚL PÉREZ*

Raúl Pérez Pereira is universally considered to be one of the world's most visionary winemakers. Since he produced his first vintage for his family's winery in 1994 at the age 22, he has been in the forefront of the conversation about what has been called "The New Spain". In the February 2018 Decanter, Master of Wine Pedro Ballesteros wrote, "Raúl Pérez is the archetype of the intuitive winemaking genius." A picture of Raúl in that same article is captioned, "Is this the best winemaker in the world?" These are not "winemaker" wines so much as they are unadulterated expressions of the villages and vineyards from which they hail.

## *MADEIRA*

{served by the ounce}

In the 1600's-1700's, wine was often fortified to survive long voyages at sea. While afloat, casks of Madeira were naturally heated. The resulting wine developed complex flavors that became highly prized. Producers then developed techniques to mimic this process. The result is Madeira as we know it today; one of the most unique and interesting wines in history.

George Washington, Betsy Ross & Thomas Jefferson are among America's most celebrated lovers of Madeira. Madeira is very likely the wine which was consumed at the signing of the Declaration of Independence and at most of the milestones of early American history. Virginia owes its wine industry to Thomas Jefferson's attempts to recreate Madeira on his own estate. In their honor we have curated a collection of rare Madeira dating back over 150 years and available by the ounce. We encourage you to try one of our recommended flights or take a custom journey with our Sommelier. Enjoy!

## *YELLOW*

Yellow wine, or vin jaune in French, is very process driven. These wines are made similarly to sherry, wherein they age in small barrels after fermentation under voile (or a veil or film of yeast). This keeps the wine from getting oxidized during a typically longer than usual (often more than 6 years!) aging process for wines made from white grapes. The finished wines are similar in style to a fino sherry, without the additional alcohol from fortification. These wines are slightly nutty in style and often cloudy in the glass.

## ORANGE

Most of the color in a wine comes from the skins, rather than the juice. Orange wines are intentionally darker in color because the winemaker has made a choice to let the white grape juice ferment with extra skin contact, like they might with a red wine. This extra contact with the skins of the grapes results in a deeper color to the finished wine and often, a richer flavor and more texture on the palate. Orange wines can be clean and fruity or very funky and fun.
