

## PRODUCERS OF NOTE

### *LOPEZ DE HEREDIA*

Lopez de Heredia - one of the most venerable producers in Spain— produces traditional, age-worthy Rioja. Their wines are legendary and still made the way they were when the winery was founded over 130 years ago. Following a tradition that has been passed down through generations, their wines are released at least 5-10 years after harvest, which provides added complexity and elegance to their Crianzas and Gran Reservas.

### *MATTHIASSEN*

Steve and Jill Matthiassen have been described as quiet anarchists in Napa Valley. They started their journey as winemaking consultants to some of the region's top, benchmark producers before launching their own label: Matthiassen. They methodically began procuring vineyard sites in Napa, with a focus on producing refined and elegant expressions of traditional grape varieties (E.G. Cabernet Sauvignon and Chardonnay). As their thoughtfulness and aspiration for discovery bubbled, so too did the wide array of varied wines that they make. Currently, they produce upwards of 20 different grapes including rarely produced varieties such as Pinot Meunier, Schioppettino, and Falanghina. Attempting to try them all is a challenge worth accepting!

### *JEAN FOILLARD*

Foillard's Morgons are deep, structured, and complex, with a velvety lushness that makes them irresistible when young despite their aging potential. Jean raises his wines in older barrels sourced from top estates in Burgundy, a logical decision for someone crafting Gamay in a Burgundian style. It is the passion and dedication of vignerons like this that have brought pride back to the crus of the Beaujolais. Jean (along with three other top winemakers in the region) were referred to as the "gang of four" due to their call for the return of old farming practices such as never using herbicides or pesticides, hand harvesting and not using sulfur at bottling. He is still a classic natural wine producer to this day.

## *MADEIRA*

{served by the ounce}

In the 1600's-1700's, wine was often fortified to survive long voyages at sea. While afloat, casks of Madeira were naturally heated. The resulting wine developed complex flavors that became highly prized. Producers then developed techniques to mimic this process. The result is Madeira as we know it today; one of the most unique and interesting wines in history.

George Washington, Betsy Ross & Thomas Jefferson are among America's most celebrated lovers of Madeira. Madeira is very likely the wine which was consumed at the signing of the Declaration of Independence and at most of the milestones of early American history. Virginia owes its wine industry to Thomas Jefferson's attempts to recreate Madeira on his own estate. In their honor we have curated a collection of rare Madeira dating back over 150 years and available by the ounce. We encourage you to try one of our recommended flights or take a custom journey with our Sommelier. Enjoy!

## *YELLOW*

Yellow wine, or vin jaune in French, is very process driven. These wines are made similarly to sherry, wherein they age in small barrels after fermentation under voile (or a veil or film of yeast). This keeps the wine from getting oxidized during a typically longer than usual (often more than 6 years!) aging process for wines made from white grapes. The finished wines are similar in style to a fino sherry, without the additional alcohol from fortification. These wines are slightly nutty in style and often cloudy in the glass.

9016. Domaine Rolet, Vin Jaune 2015 (620ml) {Savagnin}	197

## ORANGE

Most of the color in a wine comes from the skins, rather than the juice. Orange wines are intentionally darker in color because the winemaker has made a choice to let the white grape juice ferment with extra skin contact, like they might with a red wine. This extra contact with the skins of the grapes results in a deeper color to the finished wine and often, a richer flavor and more texture on the palate. Orange wines can be clean and fruity or very funky and fun.
